

### Grants and Giving History

TeamConnor's mission is to raise funds for national childhood cancer research programs, to build awareness of childhood cancer, and to support inpatient programs.

### Summary by Year

<u>Institution</u>	<u>Amount</u>	<u>State</u>	<u>Project Title/Summary</u>	<u>Year</u>
Children's Neuroblastoma Cancer Foundation	\$171,408	IL	Neuroblastoma Research and Treatment	2008
Cincinnati Children's Hospital (Dr. Timothy Cripe)	\$14,200	OH	Virotherapy for Neuroblastoma Stem Cells	2009
Circle of Care	\$15,000	CT	Circle of Care's Lifeline Emergency Fund	2009
Texas Children's Hospital	\$100,000	TX	Clinical Trial for Patients with Neuroblastoma	2009
Children's Medical Center Dallas	\$15,036	TX	Treatment and Research of Childhood Cancer	2009
Heroes for Children	\$10,000	TX	Provide Social and Financial Support to Families	2010
Circle of Care	\$17,500	CT	Circle of Care's Lifeline Emergency Fund	2010
MD Anderson (Joya Chandra, Ph.D.)	\$50,000	TX	New Strategy Options for Glioblastoma	2010
UCSF San Benioff Children's Hospital (Dr. Sarah Tasian)	\$50,000	CA	Researching Better Treatment Options for ALL Patients	2011
Memorial Sloan Kettering (Dr. Nai Kong Cheung)	\$75,000	NY	Bispecific T-Cell Engaging Antibody to Target Neuroblastoma	2011
The Carson Leslie Foundation	\$7,500	TX	Brain Tumor Research on Reoccurrence	2011
Circle of Care	\$17,500	CT	Circle of Care's Lifeline Emergency Fund	2011
MD Anderson (Laurence Cooper, MD, PhD)	\$100,000	TX	T-Cell Immunotherapy for Metastatic Osteosarcoma	2011
Memorial Sloan Kettering (Dr. Nai Kong Cheung)	\$100,000	NY	Final Stage of Bispecific T-Cell Engaging Antibody to Target Neuroblastoma	2011
UCSF San Benioff Children's Hospital (Dr. Ernesto Flores )	\$25,000	CA	Integrated Genetic and Biochemical Characterization of Hypodiploid Acute Lymphoblastic Leukemia	2011
Children's Medical Center Dallas	\$20,000	TX	Art Program - Stem Cell Transplant Unit	2012
UCSF San Benioff Children's Hospital (Dr. Ernesto Flores )	\$50,000	CA	Integrated Genetic and Biochemical Characterization of Hypodiploid Acute Lymphoblastic Leukemia	2012
UCSF San Benioff Children's Hospital (Dr. Ernesto Flores )	\$60,000	CA	Identifying Drug Targets in Hypodiploid Acute Leukemia	2012
Texas Children's Hospital (Dr. Nabil Ahmed)	\$100,000	TX	Adoptive Immunotherapy for GBM	2012
Cook Children's Health Care Systems (Dr. Andras Lacko)	\$100,000	TX	Enhanced Neuroblastoma Therapy using Targeted Biocompatible Nanoparticles	2012
Cincinnati Children's Hospital (Dr. Rachid Drissi)	\$60,000	OH	Telomerase as a Marker and Therapeutic Target for Pediatric High-Grade Glioma	2012
UT Southwestern Medical Center (James Amatruda, MD, PhD)	\$35,000	TX	Zebra Fish Research for Ewing's Sarcoma	2012

**Grants and Giving History**

<b><u>Institution</u></b>	<b><u>Amount</u></b>	<b><u>State</u></b>	<b><u>Project Title/Summary</u></b>	<b><u>Year</u></b>
Children's Medical Center Dallas	\$25,000	TX	Art Program - Stem Cell Transplant Unit	2013
Circle of Care	\$7,500	CT	Circle of Care's Lifeline Emergency Fund	2013
Baylor College of Medicine, Texas Children's Hospital (Eveline Barbieri, MD, PhD)	\$75,254	TX	Therapeutic Manipulation of Neuroblastoma Differentiation Through Epigenetic Regulation	2013
UCSF San Benioff Children's Hospital (Dr. Ernesto Flores )	\$100,963	CA	Therapeutic Targeting in Hypodiploid Acute Leukemia	2013
University of Colorado School of Medicine (Dr. Amy Keating)	\$100,000	CO	TAM Receptor Tyrosine Kinase Inhibition to Impede Invasive Progression of Astrocytoma	2013
Dana-Farber Cancer Institute, Boston Children's Hospital (Dr. Adam Green)	\$50,000	MA	Phase I/II Clinical Investigation of the Selective CRM1 Inhibitor Selinexor in Recurrent/Progressive Pediatric Brain Tumor Solid Tumors	2013
UT Southwestern Medical Center (James Amatruda, MD, PhD)	\$30,000	TX	Zebra Fish Research for Ewing's Sarcoma	2014
Baylor College of Medicine, Texas Children's Hospital (Dr. Meena Hegde)	\$50,000	TX	Enhancing the Efficacy of HER2-Specific T-Cells for Osteosarcoma	2014
Children's Hospital Los Angeles (Dr. Robert Seeger)	\$50,000	CA	Natural Killer (NK) Cell Derived Exosomes for the Treatment of Childhood Neuroblastoma	2014
Children's Medical Center Dallas	\$25,000	TX	Art Program - Stem Cell Transplant Unit	2014
Children's Health Dallas	\$8,090	TX	TeamConnor Internship	2015
Cook Children's Hospital, Fort Worth	\$6,000	TX	Art Program - Hematology & Oncology Center	2015
Children's Health Dallas	\$12,500	TX	Art Program - Stem Cell Transplant Unit	2015
Children's Hospital of Wisconsin, Milwaukee (Dr. Michael Burke)	\$35,000	WI	Bridging Study-Investigating Clofarabine, Cyclophosphamide & Etoposide for Children & Adolescents with Acute Leukemia and Minimal Residual Disease	2015
Hunter College, Memorial Sloan Kettering Cancer Center (Dr. Brian Zeglis)	\$35,000	NY	A Novel Strategy for the Pretargeted Radio-immunotherapy of Pediatric Neuroblastoma	2015
Children's Hospital of Philadelphia (Dr. Michael Hogarty)	\$10,000	PA	Targeting the Suppressive Neuroblastoma Microenvironment to Improve Anti-GD2 Directed Immunotherapy	2015
Memorial Sloan Kettering Cancer Center (Dr. Ira Dunkel)	\$10,000	NY	Sequential Phase I Studies of Nivolumab in Combination with Ipilumab in Pediatric Patients with Relapsed CNS Tumors	2015
Cook Children's Hospital, Fort Worth	\$10,122	TX	Art Program - Hematology & Oncology Center	2016
Children's Health Dallas	\$10,122	TX	Art Program - Stem Cell Transplant Unit	2016
Children's Hospital of Philadelphia (Dr. Michael Hogarty)	\$100,000	PA	Targeting the Suppressive Neuroblastoma Microenvironment to Improve Anti-GD2 Directed Immunotherapy	2016

**Grants & Giving History**

Seattle Children's Hospital (Dr. Todd Cooper and Dr. Katherine Tarlock)	\$75,673	WA	A Phase 1 Study of Crenolanib in Combination with Chemotherapy for Children with Relapsed / Refractory FLT3-Mutated AML.	2016
UT Southwestern Medical Center (James Amatruda, MD, PhD)	\$50,000	TX	Developing targeted treatments for Ewing and Ewing-like Sarcoma.	2016
DFW Community Choice Grant (UNT Health Science Center -- Dr. Stephen Mathew and Dr. W. Paul Bowman)	\$26,500	TX	Childhood Acute Lymphoblastic Leukemia (ALL): evaluation of a novel biomarker and immunotherapy target	2016
Total Giving 2008	\$171,408		Total Giving 2013	\$358,717
Total Giving 2009	\$144,236		Total Giving 2014	\$155,000
Total Giving 2010	\$77,500		Total Giving 2015	\$116,590
Total Giving 2011	\$375,000		Total Giving 2016	\$272,417
Total Giving 2012	\$425,000		<b>Total Awarded:</b>	<b>\$2,095,868</b>
